SUBJECT: MEXICO ON NIE ON IRAN

REF: STATE 162558

Deputy Political Counselor met with Julian Juarez, the Deputy Director of the Foreign Ministry's UN Office on Peace and International Security, December 6, to share the key findings of the U.S. National Intelligence Estimate (NIE) on Iran's nuclear program and to stress the importance we attach to continued pressure on Iran to meet its international obligations. While Juarez welcomed notice that Iran had halted weaponization-related activities in 2003, he registered concern that the report confirms Iran had been involved in those activities until that date. He took on board the role international pressure had played on Iran's decision to suspend its activities and remarked that Mexico would continue to urge that Iran comply with its international obligations.
